On behalf of the Members of Council and the City of Markham, it is our privilege to recognize you for your exceptional performance and representation at the FIRA RoboWorld Cup 2025 in Daegu, South Korea.

Team Canada performed remarkably, winning a total of nine medals—including four gold, two silver, and three bronze—across five different events. The team also achieved a historic milestone by winning the U-19 Championship, marking the first time a Canadian team competed in and won this category. As proud ambassadors of Markham and Canada, the team's collaboration, creativity, and determination exemplified the very best of teamwork and innovation.

The City of Markham celebrates your achievements and commends your role in inspiring young minds to pursue knowledge, leadership, and innovation—both locally and on the world stage.

October 18, 2025

Mayor Frank Scarpitti
